

Martí Serra Molina

FULL STACK DEVELOPER

Profile

Experienced full-stack developer with a proven ability to turn complex challenges into innovative and sophisticated solutions. Consistently applies a strategic and creative approach to problem-solving, ensuring optimal solutions that align with both technical and business objectives. Notable contributions to open-source projects underline his commitment to the tech community, and his professional trajectory, underscored by impactful projects, showcases adaptability and a solid foundation.

Employment History

Frontend Developer at Moments, Barcelona

JULY 2022 – DECEMBER 2022

- Developed the [website](#) for the social network Moments, implementing intricate animations that elegantly unfold as users scroll.
- Developed a website that enabled registration for the mobile app's beta, resulting in an achievement of over 20,000 registered users.
- Developed a web app that enabled users to view photos and videos of shared moments, all accessible via generated links originating from the mobile app.

Full Stack Developer at Universal Plastic, Barcelona

JANUARY 2023 – OCTOBER 2023

- Designed and developed the front-end and back-end of Universal Plastic's MVP, leading to the company's first investment.
- Collaborated with a team of developers to achieve the development of the next version of Universal Plastic's web app.

Projects

Package to build advanced multi-step forms in React

NOVEMBER 2023 – DECEMBER 2023

[Formity](#) is an npm package used to create advanced multi-step forms in React with JSON syntax. These forms intelligently progress based on users' responses.

Package to animate the screen as users scroll

JULY 2022 – SEPTEMBER 2022

[Animate Screen](#) is an npm package used to create animations in React that elegantly reveal themselves as users scroll.

Package to create user interfaces on the canvas element

APRIL 2022 – JUNE 2022

[Canvas User Interface](#) is an npm package that simplifies the process of crafting user interfaces directly on the HTML5 canvas element.
